DETAILED ACTION

Claim Objections

1. The numbering of claims is not in accordance with 37 CFR 1.126 which requires the original numbering of the claims to be preserved throughout the prosecution. When claims are canceled, the remaining claims must not be renumbered. When new claims are presented, they must be numbered consecutively beginning with the number next following the highest numbered claims previously presented (whether entered or not). The original application was filed with the original number of claims 1-74. The Preliminary Amendment filed on the same date requesting to cancel claims 1-74 and to add claims 75-94. However, the Second Preliminary Amendment was filed on 8/19/1998 to request renumbering of claims 75-94 to 82-101, respectively, and to add claims 102-127. It is unclear of why claims 75-94 are being renumbered since there are only claims 1-74 filed originally. Is the Office missing the any paper or Amendment that has claims 75-81? Applicant is respectfully requested to clarify this discrepancy. Moreover, Applicant is reminded to use the correct status identifiers for the any claims that are going to be filed in the next response. See 37 C.F.R. 1.121.

Applicant is also suggested to change "date" recited in claim 102 (numbered by applicant), line 2 to – data – when filing the Response.
